

For more information on the actions below, please see the [slides](#) and [recording](#) of the February 7th presentation.

RESIDENTIAL & COMMERCIAL BUILDINGS 4 Measures	1. RESIDENTIAL AND COMMERCIAL BUILDING UPGRADES Develop programs/resources that promote and aid the switch to energy efficiency and renewable options for residential and commercial buildings.
	2. MUNICIPAL BUILDING UPGRADES Retrofit municipally owned buildings to improve energy efficiency.
	3. LEGISLATIVE CHANGE (BUILDINGS) Advocate at the state-level for legislation to enable municipalities to regulate greener commercial and residential Building Codes.
	4. CARBON REDUCTION PLAN REPORTING (BUILDINGS) Encourage Carbon Reduction Plan reporting.
ELECTRIC POWER 1 Measure	5. RENEWABLE ENERGY GENERATION, USE, AND STORAGE Increase renewable energy throughout the region.
TRANSPORTATION 3 Measures	6. ELECTRIC VEHICLES Promote the transition to electric or other low-carbon fuel for both private and public sector vehicles.
	7. ACTIVE MOBILITY Develop robust, reliable, and accessible mobility options to encourage the shift away from single occupancy vehicles.
	8. PUBLIC TRANSIT Improve Public Transportation frequency and reliability; expand public transit options; expand programs to reduce single occupancy vehicle trips.
MATERIALS & WASTE 3 Measures	9. MATERIALS MANAGEMENT Promote a more circular economy and the reduction of carbon through improved materials management and waste processing.
	10. WASTE REDUCTION Improve residential and commercial waste diversion rates by implementing new/or enhancing existing waste programs.
	11. REDUCE ENERGY USE ASSOCIATED WITH WATER USE Reduce municipal wastewater treatment facility energy usage and emissions.
CARBON CAPTURE 2 Measures	12. CONSERVE LAND, WHILE PROMOTING SMART GROWTH Enhance carbon sequestration across the region through expansion of land conservation.
	13. EXPAND GREEN SPACE AND TREES Enhance carbon sequestration across the region through expansion of trees and green space.
GREEN ECONOMY 2 Measures	14. GREEN WORKFORCE DEVELOPMENT Increase workforce capacity in clean energy and net zero enabling sectors.
	15. EQUITABLE PROCUREMENT Promote equitable procurement practices for municipal decarbonization projects.
SUSTAINABLE GROWTH 1 Measure	16. CLIMATE FRIENDLY LAND USE Develop robust resources to enable municipalities to implement model climate-friendly land use and zoning practices.
